

Children and staff exclusion periods

- **Vomiting and diarrhoea** - off for 48 hours after last episode.
 - **Chicken pox** - a minimum of 5 days or after the last spot has healed over.
 - **Conjunctivitis** - 24 hours after medication has started.
 - **Children prescribed with antibiotics** - 48 hours after the course has started
 - **Children sent home with a temperature** – should be kept at home until their temperature has been normal, without the administration of drugs for a minimum of 24 hours
- * The aim of these exclusion periods is to minimize the spread of the illness to other children and staff.
