

Safeguarding and Child Protection Policy

(November 2023)

Safeguarding Statement

“Safeguarding is Everyone’s Business”

We recognise our moral and statutory responsibility to safeguard and promote the welfare of all children.

We make every effort to provide an environment in which children and adults feel safe, secure, valued, and respected. We want children and adults to feel confident to talk if they are worried, believing they will be effectively listened to.

The purpose of this policy is to provide staff and Managers with the framework they need to keep children safe and secure in our setting. The policy also informs parents and carers how we will safeguard their children whilst they are in our care.

Key personnel

Designated Safeguarding Lead (DSL) is Alison Doussoux

Deputy DSL is Ruth Claydon

Email details: westbyfleetnursery@hotmail.co.uk

Tel: 01932 353288

Terminology

Safeguarding and promoting the welfare of children is defined as:

- protecting children from maltreatment.
- Preventing impairment of children's mental or physical health or development.
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care.
- taking action to enable all children to have the best outcomes.

Child Protection is a part of safeguarding and promoting welfare. It refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm.

Early Help means providing support as soon as any needs emerge or are identified at any point in a child's life.

Staff refers to all those working for or on behalf of the setting, full or part time, temporary or permanent, in either a paid or voluntary capacity.

Child(ren) includes everyone under the age of 18. Overall, this will apply to children attending our setting; however, the policy will extend to visiting children and students from other establishments.

Parents refers to birth parents and other adults who are in a parenting role, for example stepparents, foster carers, and adoptive parents.

Social Care refers to Children's Services in the area in which the child is resident, unless a child is a Child Looked After then this will be the Children's Services in their home authority.

MAP refers to the Surrey Multi-Agency Partnership.

C-SPA refers to the Children's Single Point of Access.

Introduction:

This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004, The Childcare Act 2006 and in line with statutory guidance:

- Statutory Framework for the Early Years Foundation Stage 2024(EYFS)
- Keeping Children Safe in Education 2022 (KCSIE)
- Working Together to Safeguard Children 2023, Revised Safeguarding Statutory Guidance
- Framework for the Assessment of Children in Need and their Families 2000
- What to do if You are Worried a Child is Being Abused 2015
- Ofsted Inspecting Safeguarding in early years, education, and skills 2019.
- Early years inspection handbook for Ofsted-registered provision for September 2021.
- The Human Rights Act 1998
- The Equality Act 2010 (including the public sector Equality Duty)

The policy also reflects, [Surrey Safeguarding Children Partnership](#) (SSCP) Procedures.

This policy applies to ALL members of staff, volunteers, and Managers of West Byfleet Nursery.

This policy applies where there are safeguarding concerns regarding children who attend the setting but may also apply to other children connected to the setting, for example siblings or younger staff (under 18's) or children on student/work placements.

The Managers and DSLs will review this policy at least annually. This policy will additionally be updated in line with changes in local and national guidance and legislation.

Parents/carers can obtain a copy of the Safeguarding and Child Protection Policy and other related policies from our website or on request.

Equalities Statement:

With regards to safeguarding we will consider our duties under the Equality Act 2010 and our general and specific duties under the Public Sector Equality Duty. General duties include:

Eliminate discrimination, harassment, victimisation, and other conduct that is prohibited by the Equality Act 2010. Staff are aware of the additional barriers to recognising abuse and neglect in children with Special Educational Needs and Disabilities (SEND). Details of our specific duties are published in our Inclusion Policy, which can be found on our website.

Principles, Values and Aims

The Early Years Foundation Stage (2023 3.1) states 'Children learn best when they are healthy, safe and secure, when their individual needs are met, and when they have positive relationships with the adults caring for them.'

West Byfleet Nursery will demonstrate a commitment regarding Safeguarding and Child Protection to children, parents, and other partners. We will maintain an attitude of 'it could happen here,' where the welfare of the child is paramount. All systems, processes and policies will operate in the best interests of the child.

All children have a right to be protected from harm and abuse. All staff have a role in the prevention of harm and abuse and an equal responsibility to act immediately on any suspicion or disclosure that may indicate a child is at risk of harm, either in West Byfleet Nursery, at home or in the community, considering contextual safeguarding, in accordance with statutory guidance.

We acknowledge that working in partnership with other agencies protects children and reduces risk and we will engage in partnership working to protect and safeguard children. Whilst West Byfleet Nursery will work openly with parents as far as possible, we reserve the right to contact Social Care or the Police, without notifying parents, if this is believed to be in the child's best interests.

Related Safeguarding Policies

This policy should be read in conjunction with:

- Behaviour Management Policy
- Code of Conduct
- Confidentiality Policy

- Data Protection policy
- Illness and Injury Policy
- Inclusion Policy
- Information Sharing Policy
- Nappy changing/Intimate care Policy
- Late/Non-Collection & Non-attendance Policy
- Lost Child Policy
- Staffing Policy

Supporting Children

We recognise that West Byfleet Nursery may provide a safe place and the only stability in the lives of children who have been abused or who are at risk of harm.

We recognise that a child who is abused or witnesses abuse and/or violence may feel helpless and humiliated, may blame themselves, and find it difficult to develop and maintain a sense of self-worth.

We accept that research shows that the behaviour of a child in these circumstances may range from that which is perceived to be normal to aggressive or withdrawn.

We recognise that West Byfleet Nursery plays a significant part in the prevention of harm to our children by providing children with good lines of communication with trusted adults, supportive friends, and an ethos of protection.

West Byfleet Nursery will support all children:

- By treating each child as an individual so that they can learn, be resilient, capable, confident, and self-assured.
- By teaching children to be strong and independent through positive relationships
- By establishing and maintaining an ethos where children feel safe and secure and are encouraged to share their thoughts and feelings through conversation, storytelling, and role play.
- By ensuring that all children know there is an adult in West Byfleet Nursery whom they can approach if they are worried.
- By reassuring children who report concerns that they are being taken seriously and that they will be supported and kept safe.
- By ensuring we will encourage self-esteem and self-awareness, through the Early Years Foundation Stage and through positive relationships within the community.
- By ensuring we will respond sympathetically to any requests for quiet time.
- By ensuring we will liaise and work in partnership with other support services and agencies involved in Early Help and the safeguarding of children.
- By ensuring we will notify Social Care immediately if there is a significant concern.

Safer Recruitment

We will ensure that:

West Byfleet Nursery operates a safer recruitment procedure that includes statutory checks on staff suitability to work with children including verification of their identity, qualifications, disqualification by association regulations and a satisfactory DBS check (according to EYFS requirements). We comply with the [Disqualification under the Childcare Act 2006](#) guidance issued in August 2018.

West Byfleet Nursery will obtain an enhanced criminal records check (DBS) in respect of every person aged 16 and over including for unsupervised volunteers, and supervised volunteers who provide personal care who:

- Work directly with children

An additional criminal records check (or checks if more than one country) will be made for anyone who has lived or worked abroad.

West Byfleet Nursery ensures that there is at least one person on every recruitment panel who has completed safer recruitment training, if there is not a panel conducting interviews then the individual will have completed the safer recruitment training.

West Byfleet Nursery will record information about staff qualifications and the identity checks and vetting processes that have been completed. This information is stored securely in line with our information sharing policy.

West Byfleet Nursery will make a referral to the Disclosure and Barring Service and Ofsted where a member of staff is dismissed (or would have been, had the person not left the setting first) because they have harmed a child or put a child at risk of harm ([Safeguarding Vulnerable Groups Act 2006](#)).

Training and Induction

All staff receive information about the safeguarding arrangements upon induction, including the Safeguarding Statement, Staff code of Conduct, Behaviour Management, Safeguarding and Child Protection policy, the role and names of the DSL and their deputy (in line with advice [from Surrey Safeguarding Children Partnership](#) which is regularly updated).

The name of the DSL and DDSL for Safeguarding and Child Protection, are clearly advertised within the setting and on our website, with a statement explaining our role in referring and monitoring cases of suspected harm and abuse.

All staff will:

- complete Safeguarding training (in line with the safeguarding and welfare requirements, EYFS 2023) at the earliest opportunity, and always within the first six months of employment.
- receive regular updates in Safeguarding, online safety, and reporting concerns (for example, via training, supervisions, email, and staff meetings), as required, but at least annually.

All and managers have regular Safeguarding / Child Protection awareness training and updates by the DSL as appropriate, to maintain their understanding of the signs and indicators of abuse and neglect.

West Byfleet Nursery will advise all staff that they must not be under the influence of alcohol or any other substance which may affect their ability to care for children. If a staff member is taking medication which may affect their ability to care for children, the staff member should seek medical advice. We will ensure that staff members only work directly with children if medical advice confirms that the medication is unlikely to impair that staff member's ability to look after children properly. All medication on the premises are securely stored, and out of reach of children, at all times.

West Byfleet Nursery will advise staff to disclose any reason that may affect their suitability to work with children including convictions, cautions, court orders, and warnings.

All staff will be provided with a copy of our setting's behaviour management policy.

All staff will be made aware of the expectations relating to use of mobile technology within the setting, including mobile phones, cameras, and wearable technology. All staff will be made aware of the professional risks associated with the use of social media and electronic communication. Staff will adhere to relevant setting policies including the staffing policy, information sharing, confidentiality, data protection and the code of conduct.

Staff Support and Supervision:

West Byfleet Nursery will follow their legal responsibilities under the [Equality Act 2010](#) including the fair and equal treatment of practitioners regardless of age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex, and sexual orientation.

West Byfleet Nursery has in place supervisions for all staff members who have contact with children and families, in line with Early Years Foundation Stage 2024.

The Early Years Foundation Stage 2024 states that 'effective supervision provides support, coaching and training for the practitioner and promotes the interests of children. Supervision should foster a culture of mutual support, teamwork, and continuous improvement, which encourages the confidential discussion of sensitive issues.

Supervision will provide opportunities for staff to:

- discuss any issues – particularly concerning children's development or well-being, including Child Protection concerns.
- identify solutions to address issues as they arise.
- receive coaching to improve their personal effectiveness.

- discuss any other issues in confidence.

Roles and Responsibilities

All staff:

Have a key role to play in identifying concerns early and in providing help for children. To achieve this, they will:

- Maintain an attitude of “it could happen here” with regard to safeguarding.
- Understand that safeguarding is EVERYONE’S RESPONSIBILITY
- Maintain a “zero tolerance” approach to sexual violence and sexual harassment.
- Know who the DSL and DDSL are, and how to contact them.
- Be aware of indicators of abuse and neglect, understanding that children can be at risk of harm inside and outside of the setting, their home and online.
- Exercise professional curiosity, knowing what to look for is vital for the early identification of abuse and neglect of children who may be vulnerable and/or in need of help and protection.
- Attend training in order to be aware of and alert to the signs of abuse and neglect, so they are able to identify cases of children who may need help or protection.
- Provide a safe environment in which children can learn.
- Establish and maintain an environment where children feel secure, are encouraged to talk, and are listened to.
- Have a duty of care to take appropriate action and work with other services as needed.
- Be prepared to identify children who may benefit from Early Help
- Be aware of the local Early Help process and their role in it.
- Ensure children know that there are adults in the setting who they can approach if they are worried or have concerns.
- Be aware that mental health issues can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.
- Respond appropriately to mental health issues.
- Understand the setting’s Safeguarding and Child Protection policy and procedures.
- Record concerns immediately that day if they are worried that a child is being abused and take appropriate action on the same day to respond to and report a Safeguarding concern to the DSL/DDSL
- Be prepared to refer directly to the Children’s Single Point of Access (C-SPA), and the Police if appropriate, if there is a risk of significant harm and the DSL or their Deputy is not available.
- Follow the allegations procedures as set out in this policy if the disclosure is an allegation against a member of staff or volunteer.
- Report low level concerns about any member of staff/volunteer in line with [Surrey LADO guidance and Ofsted guidance](#).
- Notify the DSL or their DDSL of any child on a Child Protection Plan or Child in Need Plan who has unexplained absence.
- Be aware that children may not feel ready or know how to tell someone they are being abused, exploited, or neglected and they may not recognise these experiences as harmful. This could be due to their age, vulnerability, disability, or language barriers.

The Managers:

In addition to the role and responsibilities of all staff the Managers will ensure that:

- All managers receive appropriate safeguarding and child protection training (including online) at induction.
- There is a whole setting approach to Safeguarding and the setting fully contributes to inter-agency working in line with Working Together to Safeguard Children 2023 guidance.
- The setting has effective Safeguarding policies and procedures including a Safeguarding and Child Protection Policy, a Staffing Policy, Code of Conduct, and a Behaviour Management Policy. This ensures appropriate action is taken in a timely manner to safeguard and promote children’s welfare.
- That the setting has clear expectations of all staff regarding sexual harassment, online sexual abuse, and sexual violence (including sexualised language). This is unacceptable, see code of conduct.
- They have appropriate knowledge of KCSIE 2022 part 5.
- That all children are supported to report concerns about harmful sexual behaviour freely. That concerns are taken seriously and dealt with swiftly and appropriately, and children are confident that this is the case.
- Comprehensive records of all allegations are kept.
- The setting operates a safer recruitment procedure that includes statutory checks on staff suitability to work with children and disqualification by association regulations and by ensuring that there is at least one person

on every recruitment panel who has completed safer recruitment training, if there is not a panel conducting interviews then the individual will have completed the safer recruitment training.

- Take a proportionate risk-based approach to the level of information that is provided to temporary staff and volunteers.
- At least one member of the Management team has completed safer recruitment training.
- Staff have been trained appropriately and this is updated in line with guidance and that mechanisms are in place to assist staff in understanding and executing their roles and responsibilities.
- All staff are aware of the role of the DSL including the identity of the DSL and DDSL
- All staff are provided with the setting's Safeguarding and Child Protection policy and the Staffing policy.
- Policies are consistent with SSCP, and statutory requirements are reviewed annually (as a minimum) and updated if needed.
- The setting has procedures for dealing with allegations of abuse against staff, the Management team, volunteers and against other children, and that a referral is made to the DBS and Ofsted if a person in regulated activity has been dismissed or removed due to safeguarding concerns or would have had they not resigned.
- Policies and processes are in place to deal with concerns (including allegations) which do not meet the allegation/harm threshold or "low level concerns".
- All staff feel able to raise concerns about poor or unsafe practice and that such concerns are handled sensitively and in accordance with the Whistleblowing procedure.
- The DSL or DDSL will take lead responsibility for any Safeguarding and Child Protection concerns, and that the role is explicit in the DSL's job description.
- That on appointment, the DSL and deputy undertake inter-agency training, Working Together to Safeguard Children (e-Learning or equivalent), Advanced Safeguarding in Surrey (previously Foundation Module 2) and initially undertake DSL: New to Role Training with 'Refresher' training every two years as well as attending DSL network events, to refresh knowledge and skills.
- Sufficient time, training, support, and resources, including cover arrangements where necessary, is allocated to the DSL to carry out their role effectively including provision of advice and support of settings staff, take part in strategy discussions/meetings, inter agency meetings supporting other staff to do so and contributing to the assessment of children.
- Children are taught about safeguarding (including online safety).
- The setting will ensure application filters and monitoring systems are in place to safeguard children online.
- Clear systems and processes are in place for identifying possible mental health concerns, including routes to escalate with clear referral and accountability systems.
- Ensure that safeguarding and child protection files are maintained as set out in KCSIE 2022 Annex C
- Enhanced DBS checks are in place for all Staff, Management and Directors.
- Any weaknesses in safeguarding are remedied immediately.

The Designated Safeguarding Lead (DSL):

The EYFS 2023 (3.5) states "a practitioner must be designated to take lead responsibility for safeguarding children in every setting".

Managers have appointed Alison Doussoux as the DSL and Ruth Claydon as the DDSL for our setting. They are appropriately qualified and experienced to enable them to fulfil this role.

In addition to the role and responsibilities of all staff the DSL will:

Hold the lead responsibility for Safeguarding and Child Protection (including online safety) and be available for staff to discuss any safeguarding concerns.

Manage referrals:

The DSL is expected to refer cases:

- Of suspected abuse and neglect to the C-SPA and support staff to make these referrals.
- To the Channel programme (where there is a radicalisation concern) and support staff to make these referrals.
- Report concerns that a child may be at risk of radicalisation or involvement in terrorism and use the [Prevent referral form](#). If the matter is urgent then Police must be contacted by dialling 999. In cases where further advice from the Police is sought dial 101 or 01483 632982 and ask to speak to the Prevent Supervisor for Surrey.
- To the Disclosure and Barring service (where a person is dismissed/left due to risk/harm to a child)
- To the Police (where a crime may have been committed)

Work with others:

- Act as a source of support, advice, and expertise for all staff
- Act as a point of contact for the safeguarding partners; Local Authority, Police and Health
- Liaise with the “case manager” and the Local Authority Designated Officer (LADO)
- Liaise with staff and external agencies on matters of safety and safeguarding (including online and digital safety) so that children’s needs are considered holistically.
- Liaise with the senior mental health lead and/or the mental health support team.
- Promote supportive engagement with parents and/or carers in safeguarding and promoting the welfare of children, including where families may be facing challenging circumstances.
- Know the cohort of children who have or have had a social worker, with understanding of their academic progress and attainment, and maintaining a culture of high aspirations for this cohort.
- Support staff to provide additional academic support or reasonable adjustments to help children who have or have had a social worker reach their potential, recognising that even when statutory social care intervention has ended, there is still a lasting impact on children’s educational outcomes.

Raise awareness:

- Ensure each member of staff has access to and understands the Safeguarding and Child Protection policy and procedures.
- Ensure the policy is reviewed annually (as a minimum)
- Ensure the policy is available upon request and parents are aware of the setting’s obligations to refer cases where necessary.
- Link with safeguarding partners to make sure staff are aware of training opportunities and SSCP arrangements.
- Help promote the educational and developmental outcomes by sharing information about the Welfare, Safeguarding and Child Protection issues that a child is experiencing or has experienced with appropriate staff members.

Training, knowledge, and skills

- Undergo training to provide them with knowledge and skills required to carry out the role (at least every two years)
- Understand Surrey’s Effective Family Resilience assessment process and request for support pathway for providing Early Help and statutory intervention.
- Have a working knowledge of how local authorities conduct a Child Protection case conference/ review conference and attend/contribute effectively.
- Understand the importance of the role in providing information and support to children’s social care.
- Understand the lasting impact that adversity and trauma can have, including on children’s behaviour, mental health, and wellbeing, and what is needed in responding to this in promoting educational outcomes.
- Are alert to the specific needs of children in need, those with additional needs and disabilities, those with relevant health conditions and young carers.
- Understand the importance of information sharing, both within the setting, and with the safeguarding partners, other agencies, organisations, and practitioners.
- Understand and support the setting with regards to the requirements of the Prevent Duty and can provide advice and support to staff on protecting children from the risk of radicalisation.
- Are able to understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at the setting.
- Can recognise the additional risks that children with additional needs and disabilities face online.
- Obtain access to resources and attend any relevant or refresher training courses.

In addition to the formal training set out above, their knowledge and skills should be refreshed (this might be via e-bulletins, meeting other DSL’s, attending Early Years network meetings, or simply taking time to read and digest safeguarding developments) at regular intervals, as required, and at least annually, to allow them to understand and keep up with any developments relevant to their role.

Providing support to staff

Support and advise staff and help them feel confident with Welfare, Safeguarding and Child Protection matters. This includes specifically to:

- ensure that staff are supported during the referrals processes, and

- support staff to consider how safeguarding, welfare and educational outcomes are linked, including to inform the provision of academic and pastoral support.

Understanding the views of children

- Encourage a culture of listening to children and taking account of their wishes and feelings, among all staff, and in any measures the setting may put in place to protect them.
- Understand the difficulties that children may have in approaching staff about their circumstances and consider how to build trusted relationships which facilitate communication.

Holding and sharing information

- Understand the importance of information sharing, both within the setting and with other settings on transfer (including in-year transfer), and with the safeguarding partners, other agencies, organisations, and practitioners.
- Understand relevant data protection legislation and regulations, especially the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR).
- Be able to keep detailed, accurate, secure written records of concerns and referrals and understand the purpose of this record-keeping.

Deputy Designated Safeguarding Lead/s (DDSL):

Any deputies should be trained to the same standard as the DSL and the role should be explicit in their job description. Whilst the activities of the DSL can be delegated to appropriately trained deputies, the ultimate lead responsibility for Child Protection, as set out above, remains with the DSL, this lead responsibility should not be delegated.

In the absence of the DSL, carry out the activities necessary to ensure the ongoing safety and protection of children. In the event of the long-term absence of the DSL the DDSL will assume all of the functions of the DSL.

Safeguarding and Child Protection procedures

At West Byfleet Nursery if a member of staff suspects abuse, spots signs or indicators of abuse and neglect, or they have a disclosure of abuse made to them they must:

- Listen carefully to the child reflecting back the concern.
- Use the child's language.
- Be non-judgmental and reassure the child.
- Only use open questions to clarify information e.g., Tell, Explain, Describe (TED).
- Not promise confidentiality.
- Explain that they need to pass information to the DSL/other professionals to help keep the child and/or other children safe.

Additional consideration needs to be given to children with communication difficulties and for those whose preferred language is not English. It is important to communicate with children in a way that is appropriate to their age, understanding and preference.

The following procedures apply to all staff working in the setting and will be covered in training to enable staff to understand their role and responsibilities.

The aim of the procedures is to provide a robust framework which enables staff to take appropriate action when they are concerned that a child is being harmed or abused or is at risk of harm or abuse.

The prime concern at all stages must be the interests and safety of the child. Where there is a conflict of interest between the child and an adult, the interests of the child must be paramount.

All staff are aware that very young children and those with disabilities, special needs or with language delay may be more likely to communicate concerns with behaviours rather than words. Additionally, staff will question the cause of knocks and bumps in children who have limited mobility.

If a member of staff suspects abuse, spots signs or indicators of abuse and neglect, or they have a disclosure of abuse made to them they must:

1. Make an initial record, on a hard copy of the "concern or incident record form" of the information related to the concern immediately.
2. Make an accurate record (which may be used in any subsequent court proceedings) as soon as possible and update online safeguarding file as soon as possible of the occurrence, of all that has happened, including details of:
 - Date, time, and place
 - Who was present, context.

- Details of the disclosure/ concern in the actual words or phrases used by the child.
 - Demeanour/ non-verbal behaviours of the child
 - Any injuries
 - Rationale for decision making and action taken.
- 3 Report it to the DSL/DDSL immediately.
 - 4 DSL/DDSL will consider if there is a requirement for immediate medical intervention, however urgent medical attention should not be delayed if the DSL/DDSL is not immediately available.
 - 5 The records must be signed and dated by the author or equivalent on electronic based records.
 - 6 In the absence of the DSL or DDSL, staff must be prepared to refer directly to C-SPA (and the Police if appropriate) if there is the potential for immediate significant harm or contact the consultation line at the C-SPA for support and advice.

In all cases, if staff are unsure, they will always speak to the DSL, DDSL or C-SPA for advice.

Following a report of concerns the DSL/DDSL must:

Use the [SSCP Effective Family Resilience May 2023](#) with levels of need, to decide the relevant actions to be taken.

If we suspect a child is suffering, or is likely to suffer, harm or abuse the DSL must contact the C-SPA by sending a [Request for Support Form](#) by secure email to: cspa@surreycc.gov.uk.

If a child is in immediate danger and urgent protective action is required, the Police (dial 999) must be called. The DSL must also notify the C-SPA of the occurrence and what action has been taken and the Police, if it is appropriate. If there is not a risk of significant harm, the DSL will either actively monitor the situation or consider offering Early Help.

The DSL may seek advice or guidance from the C-SPA consultation line before deciding next steps.

When a child needs urgent medical attention and there is suspicion of abuse the DSL or their Deputy should take the child to the accident and emergency unit at the nearest hospital, having first notified the C-SPA. The DSL should seek advice about what action the C-SPA will take and about informing the parents, remembering that parents should normally be informed that a child requires urgent hospital attention.

The exception to this process will be in those cases of known FGM where there is a mandatory requirement for the DSL/DDSL or staff to report directly to the Police.

At West Byfleet Nursery we will make all attempts to discuss any concerns about a child's welfare with the family and where possible to seek their agreement before making a referral to the C-SPA. Where there are doubts or reservations the DSL should clarify with the C-SPA or the Police as to whether the parents should be told about the referral and, if so, when and by whom.

However, if it is suspected that informing the parents will place increased risk to the child or impede a Police investigation, advice will be sought from the C-SPA and / or the Police about next steps.

What happens next?

It is important that concerns are followed up and it is everyone's responsibility to ensure that they are. Members of staff should be informed by the DSL what has happened following a report being made. If they do not receive this information, they should seek it out.

If we have concerns that the disclosure/concern has not been acted upon appropriately, we will follow Surrey's [Surrey's FindingSolutions Together Process](#).

Record Keeping

At West Byfleet Nursery we maintain records and obtain and share information (with parents and carers, other professionals working with the child, the Police, Social Care, and Ofsted, as appropriate) to ensure the safe and efficient management of the setting, and to help ensure the needs of all children are met.

We keep written records of any concerns about a child's welfare or safety, these are kept confidential and stored securely. This record will include a clear and comprehensive summary of any concerns, details of how concerns were followed up and resolved, and a note of any action taken, decisions reached and outcomes. A body map will be completed if injuries are observed.

The record will always be signed and dated by the person making the report and will be shared immediately with the DSL. If there is an immediate concern the member of staff will discuss the concern with the DSL first to ensure the safety of the child and then will complete the report afterwards.

The DSL will record any discussions, decisions, and reasons for those decisions on the child's Safeguarding and Child Protection file.

See Data Protection Policy and retention list.

Information sharing and managing the Child Protection file

At West Byfleet Nursery we ensure:

Safeguarding and Child Protection files are kept up to date. Information will be kept confidential and stored securely. Safeguarding and Child Protection concerns, and referrals will be kept in a separate Child Protection file for each child.

The file is only accessed by trained staff who need to see it and where the file or content within it is shared, in line with information sharing advice.

Where children leave the setting (including in-year transfers) the DSL will ensure their Safeguarding and Child Protection file is transferred to the new setting or school as soon as possible, and within 5 days for an in-year transfer or within the first 5 days of the start of a new term. This should be transferred separately from the main pupil file, ensuring secure transit, and confirmation of receipt should be obtained. Receiving settings and schools should ensure that key staff such as DSLs and SENCOs are aware as required.

If the setting is unable to locate the new setting/school the file will be kept until the child is 25, this is seven years after they reach the school leaving age. (Information and Records Management Society (IRMS), 2019).

Where a child joins the setting and no safeguarding and child protection files are received, the DSL will proactively seek to confirm from the previous setting whether a file exists for the child, and if so, if the files have been sent.

Confidentiality and Information Sharing

At West Byfleet Nursery all matters relating to Child Protection will be treated as confidential and only shared as per the ['Information Sharing Advice for Practitioners' \(DfE 2018\) guidance](#).

All staff must be aware that they have a professional responsibility to share information with other agencies in order to safeguard children and that the Data Protection Act 1998 and GDPR are not a barrier to sharing information where a failure to do so would place a child at risk of harm. There is a lawful basis for Child Protection concerns to be shared with agencies who have a statutory duty for Child Protection.

Information will be shared with staff within the setting who 'need to know'.

Relevant staff have due regard to GDPR principles which allow them to share (and withhold) information.

All staff must be aware that they cannot promise complete confidentiality and should explain that they need to pass information to other professionals to help keep the child and/or other children safe. The degree of confidentiality should always be governed by the need to protect the child.

All staff will always gain parent/carers consent to refer a child to Social Care unless to do so could put the child at greater risk of harm or impede a criminal investigation.

West Byfleet Nursery's trained Data Protection Officer (DPO) is Ruth Claydon. It is a requirement by the General Data Protection Regulations (GDPR) to ensure that our setting is compliant with all matters relating to confidentiality and information sharing.

Allegations against/concerns raised in relation to a member of staff, agency staff, volunteers, and contractors

West Byfleet Nursery will follow [Surrey Safeguarding Children's Partnerships procedure for allegations against adults who work with children](#).

This procedure should be used in all cases which may meet the harms threshold in which it is alleged a member of staff, including agency staff, volunteer, or another adult who works with children has:

- behaved in a way that has harmed a child or may have harmed a child.
- possibly committed a criminal offence against or related to a child; or
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children.
- behaved or may have behaved in a way that indicates they may not be suitable to work with children.

The last bullet point above includes behaviour that may have happened outside of the setting, that might make an individual unsuitable to work with children, this is known as transferable risk.

Allegations against a member of staff who is no longer at the setting should be referred to the Police. Historical allegations of abuse should also be referred to the Police.

Where settings identify a child has been harmed, that there may be an immediate risk of harm to a child or if the situation is an emergency, they should contact children's social care, and as appropriate, the Police immediately.

In dealing with allegations or concerns against an adult, staff must:

- Report any concerns about the conduct of any member of staff, volunteer, or other adult to Ruth Claydon or Nicky Welland (Managers) immediately.
- If an allegation is made against one or more of the Managers/Owners, the concerns need to be raised with a different manager/owner as soon as possible. If not available, then the LADO and Ofsted should be contacted directly.
- Once an allegation has been received by the Manager/Owner they will contact the LADO and Ofsted (as part of their mandatory duty) on 0300123 1650 option 3 LADO or Email: LADO@surreycc.gov.uk immediately and before taking any action or investigation.
- Following consultation with the LADO inform the parents of the allegation unless there is a good reason not to.

In liaison with the LADO and Ofsted, the setting will determine how to proceed and if necessary, the LADO will refer the matter to Children's Social Care and/or the Police.

West Byfleet Nursery have a duty to inform Ofsted of any allegations of serious harm or abuse by any person living, working, or looking after children at the premises (whether the allegations relate to harm or abuse committed on the premises or elsewhere). We must also notify Ofsted of the action taken in respect of the allegations. Notifications will be made as soon as is reasonably practicable, but at the latest within 14 days of the allegations being made. We understand that if we fail to comply with this requirement, we will commit an offence.

The LADO will advise the setting of who is able to provide support within the local authority, in line with the SSCP procedures.

Low level concerns that do not meet the allegation/harm threshold

At West Byfleet Nursery we have procedures and process in place (Terms and Conditions of Employment) to deal with low level concerns (including allegations) which do not meet the allegation/harm threshold set out above.

The term low level concern does not mean it is insignificant. A low-level concern is any concern, no matter how small, and even if no more than causing a sense of unease or a 'nagging doubt' – that an adult working in or on behalf of the setting may have acted in a way that:

- Is inconsistent with the staff code of conduct, including inappropriate conduct outside of work.
- Does not meet the harm threshold or is otherwise not serious enough to consider a referral to the LADO.

Concerns may arise in several ways and from several sources. For example: suspicion; complaint; or disclosure made by a child, parent, or other adult within or outside of the organisation; or as a result of vetting checks undertaken.

The purpose of reporting low level concerns is to create and embed a culture of openness, trust, and transparency in which the setting's values and expected behaviour set out in the staff code of conduct are lived, monitored, and reinforced constantly by all staff.

The setting creates an environment where staff are encouraged and feel confident to self-refer where they have found themselves in a situation. If in doubt the setting would always seek advice from the C-SPA.

Whistle blowing

We recognise that children cannot be expected to raise concerns in an environment where staff fail to do so.

All staff should be aware of their duty to raise concerns, where they exist, about the management of Safeguarding and Child Protection, which may include the attitude or actions of colleagues, poor or unsafe practice and potential failures in setting's safeguarding arrangements.

Staff are encouraged to use an external, independent and confidential service provided by Navex Global, who can be contacted on their freephone helpline number 0800 069 8180 and through the [Navex Global web pages](#).

The NSPCC whistleblowing helpline is also available for staff who do not feel able to raise concerns regarding Child Protection failures internally or have concerns about a way a concern is being handled by their setting. Staff can call: 0800 028 0285 – line is available from 8:00 AM to 8:00 PM, Monday to Friday and Email: help@nspcc.org.uk.

Specific safeguarding Issues

At West Byfleet Nursery we are aware of a range of specific safeguarding issues and situations that can put children at greater risk of harm. Whilst some of these issues may be more likely to involve older children, early years children may still be at risk of harm, or concerns may be identified where there are risks for children's family members or siblings, and/or young staff members, including for example, children on work placements/experience.

Peer on Peer/Child on Child abuse

At West Byfleet Nursery staff are aware that children can abuse other children and that it can happen both inside and outside of our setting. Peer on peer/child on child abuse is not tolerated within West Byfleet Nursery and our staff are able to recognise the signs and indicators and respond appropriately.

At West Byfleet Nursery we recognise that child on child abuse is most likely to include but not limited to:

- Bullying, including cyber bullying.
- Physical abuse such as hitting, kicking, biting, or otherwise causing physical harm.
- Sexual violence and or sexual harassment. Sexual activity without consent
- Consensual or non-consensual sharing of nude or semi-nude images or video
- Upskirting, which typically involves taking a picture under a person's clothing without their permission.
- Initiation/hazing type violence/rituals

West Byfleet Nursery recognises that it is vital that professionals agree on how behaviours should be categorised regardless of culture, faith, beliefs, and their own experiences or values. Additionally, staff recognise that that some peer on peer/child on child abuse issues may be affected by sexual identity, age, ability, and culture of those involved, however, all peer on peer/child on child abuse is unacceptable and all reports will be taken seriously.

In order to minimise the risk of peer on peer/child on child abuse:

- all allegations of peer on peer/child on child abuse will be recorded, investigated, and be dealt with in line with associated setting policies, including Child Protection, Anti-Bullying and Behaviour Management.
- Alleged victims, perpetrators and any other child affected by peer on peer/child on child abuse will be supported.

Sexual Violence and Sexual Harassment

Sexual violence and sexual harassment can occur between children of any age and sex. It can occur through a single child or a group of children sexually assaulting or sexually harassing a single child or group of children.

We will minimise the risk of peer on peer/child on child abuse by taking a whole setting approach to Safeguarding and Child Protection and providing staff with appropriate training. We will provide a clear set of values and standards, underpinned by the setting's behaviour management policy and pastoral support. We will engage with specialist support and interventions.

Harmful Sexual Behaviour

Children's sexual behaviour exists on a wide continuum ranging from normal and developmentally expected to inappropriate, problematic, abusive, and violent.

The [Brook Traffic Light Tool](#) uses a traffic light system to categorise the sexual behaviours of young people and it can be used to help professionals:

- Make decisions about safeguarding children and young people.
- Assess and respond appropriately to sexual behaviour in children and young people.
- Understand healthy sexual development and distinguish it from harmful behaviour.

By categorising sexual behaviours, we can work with other agencies to the same standardised criteria when making decisions and can protect children with a multi-agency approach.

Responding

If a member of staff becomes aware of an incident, they will follow the Child Protection procedures and refer to the DSL immediately.

If a child is at risk of harm, is in immediate danger, or has been harmed, a Request for Support will be made to the C-SPA.

Risk Assessment

Following a report, the DSL will make an immediate risk and needs assessment on a case-by-case basis.

The risk assessment will consider:

- The victim, especially their protection and support.
- The alleged perpetrator, their support needs, and any discipline action.
- All other children at the setting.
- The victim and the alleged perpetrator sharing classes and space at the setting.
- The risk assessment will be recorded and kept under review.

Where there has been other professional intervention and/or other specialist risk assessments, these professional assessments will be used to inform the setting's approach to supporting and protecting children.

Support regarding risk assessments can be accessed from the [Education Safeguarding Team](mailto:education.safeguarding@surreycc.gov.uk) – education.safeguarding@surreycc.gov.uk

Action:

It is essential that all victims are reassured that they are being taken seriously regardless of how long it has taken them to come forward and that they will be supported and kept safe.

The DSL will consider:

- The wishes of the victim.
- The nature of the incident including whether a crime has been committed and the harm caused.
- Ages of the children involved.
- Developmental stages of the children.
- Any power imbalance between the children.
- Any previous incidents.
- That sexual violence and sexual harassment can take place within the family.
- Ongoing risks to victim, other children, adult students, or staff
- Other related issues or wider context.

Confidentiality:

The victim may ask the setting not to tell anyone about the sexual violence or sexual harassment. If the victim does not give consent to share information, staff may still lawfully share it, if there is another legal basis under the UK GDPR that applies, or if the child is at risk of significant harm.

The DSL will have to balance the victims wishes against their duty to protect the victim and significant risk of harm to other children.

Options:

- Manage internally.
- Early Help intervention
- Request for support to the C-SPA
- Report to the Police (generally in parallel with a request for support to the C-SPA)

Ongoing Response:

The DSL will manage each case individually and will ensure the risk assessment is reviewed regularly with relevant partner agencies, for example the Police and Children's Social Care.

The victim, alleged perpetrator and any other children & adults affected will receive appropriate support and safeguards on a case-by-case basis.

The setting will take any disciplinary action against the alleged perpetrator in accordance with the settings behaviour policy.

Mental Health

At West Byfleet Nursery staff are aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Staff are aware of how children's experiences, can impact on their mental health, behaviour, and education.

Safeguarding Children with Additional Needs and Disabilities

At West Byfleet Nursery we acknowledge that children with SEND, or certain medical or physical health conditions can face additional safeguarding challenges. These can include:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration.
- These children being more prone to peer group isolation or bullying (including prejudice-based bullying) than other children.
- The potential for children with additional needs and disabilities or certain medical conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs.
- Communication barriers and difficulties in managing or reporting these challenges.

The DSL will work closely with the SENCO's, Vicki Sloan, and Alison Doussoux, to plan appropriate support and communication as required.

See Inclusion Policy

Online Safety

Online safety is the implementation of Safeguarding in relation to electronic communications of all types.

The internet is now regarded as an essential resource to support teaching and learning. Computer skills are vital to accessing life-long learning and employment. It is important for children to learn to be online safe from an early age and the nursery can play a vital part in starting this process.

In line with nursery policies that protect pupils from other dangers, there is a requirement to provide pupils with as safe an internet environment as possible and a need to begin to teach them to be aware of and respond responsibly to possible risks.

The internet is part of everyday life, and its effective use is an essential life-skill. Unmediated internet access brings with it the possibility of placing children in embarrassing, inappropriate and even dangerous situations. Significant educational benefits can result from internet use, including access to information from around the world. Internet use should be carefully planned and targeted within a regulated and managed environment.

We have a duty to ensure that children in the Nursery are not exposed to inappropriate information or materials. We also need to ensure that children know how to ask for help if they come across material that makes them feel uncomfortable.

Internet safety in the Nursery depends on staff, parents, carers, and visitors taking responsibility for the use of internet and other communication technologies such as mobile phones. It is the Nursery's responsibility to use technical solutions to limit internet access and to monitor their effectiveness.

Staff will guide pupils in online activities that will support their learning journeys. The internet is also used in the Nursery to support the professional work of staff, to enhance the Nursery's management information and business administration systems.

The Nursery Managers is responsible for systems support and will ensure that the appropriate filters are applied to the PCs in the Nursery and to the PCs/laptops in the office. The Managers will also review the sites accessed. Staff will monitor any websites being used by the children during nursery sessions.

If staff or pupils discover unsuitable sites have been accessed on the Nursery computer, they must be reported to the Manager immediately so that the filters can be reviewed.

Staff are responsible for ensuring that material accessed by children is appropriate and for ensuring that the use of any internet derived materials by staff or by children complies with copyright law.

Information on the nursery's website <https://www.westbyfleetnursery.co.uk/> is managed as follows:

- The point of contact on the website is the nursery address, nursery email and telephone number. Staff or children's home information are not published.
- Written permission from parents or carers for using their children's photographs on the website is requested when each child starts at the Nursery and parents/carers wishes are always followed. Website photographs that include children are carefully selected and parents' specific permission obtained.
- Pupils' names will not be used anywhere on the website, particularly in association with photographs.

Managing e-mail

- Children will not have access to e-mail.
- Staff using e-mail will use a nursery e-mail address. This address must not be for personal e-mail.
- All data about children attending the Nursery will be kept on a data base for the sole purpose of the administration of the Nursery. Personal details will **not** be shared with any other party (except in circumstances where we are required by law to share information, please see our Information Sharing Policy).
- Information may be stored electronically, where this is necessary it will be in line with the Nursery's Information Sharing policy.

On-line communications and social networking

On-line chat rooms and social networking sites such as Facebook or Twitter will not be used at Nursery. Staff are not permitted to have parents of children who attend the setting as friends on any social networking site.

However, if staff already have parents as friends on social networking sites then the privacy settings must be set at maximum level and West Byfleet Nursery must never be discussed.

Staff must not discuss individual children or the setting on any social networking site. Staff must not post anything on any networking sites that may offend a parent, another staff member or any other person attending the Nursery.

Staff must adhere to West Byfleet Nursery's confidentiality policy at all times, including outside of working hours.

Any breach of this policy will lead to disciplinary procedures.

Staff are made aware of this Safeguarding policy upon induction. Staff are required to read and sign their agreement to adhere to the policy. Failure to adhere to this policy will result in disciplinary procedures being initiated.

Mobile technologies

Personal mobile phones, smart watches, tablets, and any other electronic devices with imaging and sharing capabilities, or wearable technology capable of taking photographs are not permitted outside the staff room. Staff are permitted to use their mobile phones in the staff room only, but the taking of photographs using a personal device is strictly prohibited anywhere on site.

Visitors are always accompanied and are not permitted to use mobile devices anywhere on site. Visitors who will be on site for any length of time are required to leave any bags and electronic devices in the office where they will be stored securely until their departure.

The nursery laptops remain the property of the nursery and must be returned if a member of staff leaves the nursery or if otherwise requested.

Any complaints about the inappropriate use of the internet or other technologies will be handled through the Complaints procedure.

Domestic Abuse

Domestic abuse can encompass a wide range of behaviours and may be a single incident or a pattern of incidents. That abuse can be, but is not limited to, psychological, physical, sexual, financial or emotional. It occurs regardless of race, ethnicity, gender, class, sexuality, age, religion, mental or physical ability. Children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse). All of which can have a detrimental and long-term impact on their health, well-being, development, and ability to learn.

The Domestic Abuse Act received Royal Assent on 29 April 2021. The Act introduces the first ever statutory definition of domestic abuse and recognises the impact of domestic abuse on children, as victims in their own right, if they see, hear or experience the effects of abuse.

All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Experiencing domestic abuse can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The DSL is aware of contact details and referral routes into the Local Housing Authority so they can raise/progress concerns at the earliest opportunity.

Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE)

Both CSE and CCE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

Child Sexual Exploitation (CSE)

CSE is a form of child sexual abuse. CSE can occur over time or be a one-off occurrence and may happen without the child's immediate knowledge for example through others sharing videos or images of them on social media.

CSE can affect any child who has been coerced into engaging in sexual activities. This includes 16- and 17-year-olds who can legally consent to have sex. It can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence.

Any concerns that a child is being or is at risk of being sexually exploited should be passed immediately to the DSL.

The setting is aware there is a clear link between regular non-attendance and CSE. Staff will consider a child to be at potential CSE risk in the case of regular non-attendance and will make reasonable enquiries with the child and parents/carers to assess this risk.

All staff are aware that safeguarding incidents and/or behaviours can be associated with factors outside the setting and/or can occur between children outside of these environments.

All staff, but especially the DSL will consider whether children are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, and serious youth violence.

In all cases if the DSL identifies any level of concern the DSL should contact the C-SPA and if a child is in immediate danger the Police should be called on 999.

The setting is aware that often a child is not able to recognise the coercive nature of the abuse and does not see themselves as a victim. As a consequence, the child may resent what they perceive as interference by staff.

However, staff must act on their concerns as they would for any other type of abuse. Children also rarely self-report CSE so staff must be particularly vigilant to potential indicators of risk.

Child Criminal Exploitation (CCE)

Some specific forms of CCE can include children being forced or manipulated into transporting drugs or money through County Lines, working in cannabis factories, shoplifting, or pickpocketing. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

County Lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs using dedicated mobile phone lines or other form of “deal line”. Children are exploited to move, store, and sell drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure the compliance of victims.

Children can become trapped by this type of exploitation, as perpetrators can threaten victims (and their families) with violence or entrap and coerce them into debt.

Any concerns that a child is being or is at risk of being criminally exploited will be passed without delay to the DSL. The DSL will then contact the C-SPA and if there is concern about a child’s immediate safety, the Police will be contacted on 999.

The setting is aware there is a clear link between regular non-attendance at the setting and exploitation. Staff will consider a child to be at potential risk in the case of regular non-attendance at the setting and make reasonable enquiries with the child and parents/carers to assess this risk.

Serious Violence

There are a number of indicators, which may signal children are at risk from, or are involved with, serious violent crime. These may include:

- increased absence from the setting
- a change in friendships or relationships with older individuals or groups
- a significant decline in performance
- signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries
- Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation.

Staff are aware that violence can often peak in the house just before and after the children attend the setting which includes travelling to and from the setting.

Modern Slavery

Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory labour. Exploitation can take many forms, including sexual exploitation, forced labour, slavery, servitude, forced criminality and the removal of organs. West Byfleet Nursery’s staff are trained to be aware of risk factors of Modern Slavery.

Private Fostering Arrangements

A private fostering arrangement occurs when someone other than a parent or close relative cares for a child for a period of 28 days or more, with the agreement of the child’s parents. It applies to children under the age of 16 years old or 18 years old if the child is disabled.

Looked After Children by the local authority or those who are placed in residential school/colleges, children’s homes or hospitals are not considered to be privately fostered.

Private fostering occurs in all cultures and children may be privately fostered at any age.

West Byfleet Nursery recognises that most privately fostered children remain safe and well but are aware that safeguarding concerns have been raised in some cases. Therefore, all staff are alert to possible safeguarding issues, including the possibility that the child has been trafficked into the country.

By law, a parent, private foster carer, or other persons involved in making a private fostering arrangement must notify Children’s Social Care immediately. However, where a member of staff becomes aware that a child may be in a private fostering arrangement, they will raise this with the DSL, the DSL will notify the C-SPA immediately.

Looked After Children and Previously Looked After Children

The most common reason for children becoming *Looked After* is because of abuse and/or neglect.

West Byfleet Nursery will ensure that staff have the necessary skills and understanding to keep Looked After children safe. Appropriate staff will have information about a child’s Looked After legal status and care arrangements, including the level of authority delegated to the carer by the authority looking after the child and contact arrangements with birth parents or those with parental responsibility.

A previously Looked After Child potentially remains vulnerable and all staff should have the skills, knowledge and understanding to keep Previously Looked After Children safe. When dealing with Looked After Children and Previously Looked After Children, it is important that all agencies work together and prompt action is taken when necessary to safeguard these children, who are a particularly vulnerable group.

Female Genital Mutilation (FGM)

Female Genital Mutilation (FGM) is illegal in England and Wales under the FGM Act (2003). It is a form of child abuse and violence against women. [A mandatory reporting duty requires teachers to report 'known' cases of FGM in under 18s](#), which are identified in the course of their professional work, to the Police.

The duty applies to the individual who becomes aware of the case to make a report. It should not be transferred to the DSL; however, the DSL should be informed.

Staff at West Byfleet Nursery are trained to be aware of risk indicators of FGM.

Staff should be particularly alert to suspicions or concerns expressed by female children about going on a long holiday during the summer holiday. There should also be consideration of potential risk to other girls in the family and the wider community. Where there is a risk to life or likelihood of serious immediate harm a report must be made immediately to the Police, including dialling 999 if appropriate. [HM Government - Multi-agency statutory guidance on Female Genital Mutilation \(publishing.service.gov.uk\)](#)

Forced Marriage

Forced marriage is recognised in the UK as a form of violence against women and men, domestic/child abuse, and a serious abuse of human rights. Since June 2014 forcing someone to marry has become a criminal offence in England and Wales under the [Anti-Social Behaviour, Crime and Policing Act 2014](#).

A forced marriage is not the same as an arranged marriage which is common in many cultures. The families of both spouses take a leading role in arranging the marriage but the choice of whether or not to accept the arrangement remains with the prospective spouses.

Following [Forced marriage guidance](#) staff should never attempt to intervene directly or through a third party. Contact should be made with the C-SPA and/or the Forced Marriage Unit 200 7008 0151

'So Called' Honour-Based abuse

Honour Based Abuse (HBA) can be described as a collection of practices, which are used to control behaviour within families or other social groups to protect perceived cultural and religious beliefs and/or honour. Such violence can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their honour code.

It is considered a violation of human rights and may be a form of domestic and/or sexual abuse.

Honour based abuse might be committed against people who:

- become involved with a boyfriend or girlfriend from a different culture or religion.
- want to get out of an arranged marriage.
- want to get out of a forced marriage.
- wear clothes or take part in activities that might not be considered traditional within a particular culture.

Radicalisation, Extremism and Terrorism (Prevent Duty)

[The Prevent Duty for England and Wales \(2015\)](#) under section 26 of the [Counter Terrorism and Security Act 2015](#) places a duty on education and other children's services to have due regard to the need to prevent people from being drawn into terrorism.

Staff at West Byfleet Nursery are clear that exploitation of vulnerable children and radicalisation should be viewed as a safeguarding concern.

Staff receive training to help identify early signs of radicalisation and extremism.

Opportunities are provided in the curriculum to enable children to discuss issues of religion, ethnicity, and culture. The setting promotes and embeds the fundamental British value in the setting through activities and within policies.

When any member of staff has concerns that a child may be at risk of radicalisation or involvement in terrorism, they should speak with the DSL in the first instance. They should then follow the safeguarding procedures and refer cases by e-mail to preventreferrals@surrey.pnn.police.uk following the [Prevent referral form](#). If the matter is urgent then Police must be contacted by dialling 999.

In cases where further advice from the Police is sought dial 101 or 01483 632982 and ask to speak to the Prevent Supervisor for Surrey.

Restrictive Physical Intervention

We acknowledge that staff must only ever use physical intervention as a last resort, when a child is at immediate risk of harming themselves or others, and that at all times it must be the minimal force necessary to prevent injury to another person. Such events should be fully recorded and signed by a witness.

We recognise that sometimes touch is appropriate in the context of working with children, and all staff have been given safe practice guidance to ensure they are clear about their professional boundaries.

Appendix one: What is child abuse?

The following definitions are taken from Working Together to Safeguard Children HM Government (2018). In addition to these definitions, it should be understood that children can also be abused by being sexually exploited, honour-based violence, forced marriage or female genital mutilation. To support the local context, all staff have access to the [Surrey Levels of Need \(Threshold\) Document - Surrey Safeguarding](#) and HM GOV document [what to do if you are worried a child is being abused](#)

What is abuse and neglect?

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting, by those known to them or, more rarely, by a stranger. They may be abused by an adult or adults, or another child or children.

Physical abuse

Physical abuse may involve hitting, shaking, throwing, poisoning, burning, or scalding, drowning, suffocating, or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse

The persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development.

It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only in so far as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children.

These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another.

It may involve serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur in isolation.

Sexual abuse

Involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening.

The activities may involve physical contact, including sexual assault, they may also include non-contact activities, such as encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including online).

Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development.

Neglect may occur during pregnancy as a result of maternal substance abuse.

At West Byfleet Nursery we use the [Graded Care Profile 2](#) tool to support better identification and intervention in cases of neglect and [The Graded Care Profile: Neglect Assessment Tool](#) is used to support with the initial identification of neglect.
